It is astonishing what marvellous testimonials some people will give a maker of quack medicines just to get their pictures in the papers.

The Charlotte *News* says: "Trust the people." We have been doing that thing for thirty-five years; but the net result is very discouraging.

We thought the Danville *Register* was *sui generis*. But here comes the Durham *Herald* folded just like the *Register*. Of course; the *Herald* apologizes.

There seems to be no scarcity of lawyers in Chicago. The law directory just issued places the number at 4,702, an increase of 320 for the past year.

The Atlanta *Journal* is laboring under the hallucination that "the garter has gone out of fashion." What? Why, the very latest style is "out o' sight."

The Atlanta *Journal* says: "Fortunately the caudal appendix of the Russian bear is not long enough to offer any real temptation to tail-twisting." Suppose you try the American doctors on the vermiform.

News comes from Chicago that a lieutenant of the United States navy has disappeared under a charge of bigamy, leaving behind him a deserted bride of two weeks. A courtship of less than a fortnight in large part explains the situation.

Public sentiment in favor of muzzling dogs which run at large has been steadily gaining ground. No restraints upon canine vagrants should weigh in the balance against the responsibility of a single case of hydrophobia among human beings in our midst.

"A Buffalo tailor used his hot goose on some walking delegates who called to make demands of him. The matter of the demands was not pressed, though the goose and the delegates were." To which the Richmond *Leader* says that the natural inference is that in turn the delegates proceeded to press brick.

SNEEDEN GOT HIS LICENSE.

Application of South Front Street Saloon Man Approved by County Commissioners—End of Contest.

By a vote of two to one the County Commissioners yesterday afternoon decided to approve the application of J. S. Sneeden to retail liquor at 115 South Front street, license having been previously granted by the Board of Alderman. Messrs. H. L. Vollers and Gabriel Holmes voted in the affirmative and Mr. W. F. Alexander voted in the negative. The chairman didn't vote upon the question and Maj. Wm. F. Robertson was absent at Fayetteville, where he is one of a board to value the water works system there for the purpose of a sale to the city. Mr. Sneeden, immediately upon the approval of his application, secured the necessary license from the sheriff upon payment of the $300 tax, and opened the doors of his saloon, which have been closed since his license expired, July 1st.

The Board was called to order at 3 o'clock, Chairman McEachern stating the object of the meeting to be purely for the purpose of passing upon the application of Mr. Sneeden. Mr. Vollers moved that it be granted; seconded by Mr. Holmes. Marsden Bellamy, Esq., was present as counsel for certain citizens who opposed granting the license and asked to be heard. He was accorded that privilege and presented very clearly the views of the opposition. He cited a case from the Supreme Court which went up from Duplin, in which it was held that the matter of granting the license was discretionary with the Commissioners.

Hon. Jno. D. Bellamy was next heard in behalf of the applicant. He referred to his good character and said he was glad counsel on the other side conceded as much. There was no question after that concession, as he said the Supreme Court opinion cited, clearly provided that the matter of granting was discretionary with the Commissioners only when the character of the applicant was in question. The vote was taken, resulting as stated.

There was a goodly number of citizens present to witness the proceedings; some in advocacy of the petition for license; others against granting the license. Members of the Board privately voiced its policy in saying that under the restrictions recently placed upon the traffic by the Board of Aldermen, if the law is enforced, it is next to impossible for any saloon keeper to conduct an undesirable place.

POLICE MADE MANY ARRESTS.

Number During June Was 121—The Roads Got 16.

The monthly report of Chief of Police Furlong, compiled yesterday for him by Sergeant Ward, clerk of the municipal court, shows that during June, the first full month under the new administration, 121 arrests were made, 45 of the defendants having been white and 76 colored. The list does not include those brought before the Mayor for non-payment of license tax. In June, 1902, the number of arrests was only 98.

From the arrests during June, this year, 16 defendants were sentenced to the roads; aggregate of terms, 400 days; 14 went to the Superior Court under aggregate bond of $1,025. The report is a highly creditable one. The collection of fines and pound fees will also show a heavy increase.

BIG CONTRACT FOR CRUSHED ROCK.

Mayor Calls for Bids for Street Improvement Material—Also for Granite.

Sealed proposals are invited by Mayor Springer for furnishing 25,000 to 40,000 tons of crushed stone for street improvement, same to be delivered at the quarries, on city wharves, or on the streets where wanted; also for from 10,000 to 20,000 feet granite and stone curbing. Bids will be received at the office of the Mayor until July 10th, 1903.

First Tobacco From Brunswick.

Messrs. Stanland & Hewette, of Shallotte, Brunswick county, sent the first new tobacco of the season to the Wilmington tobacco warehouse July 1st. The tobacco is a good "sand lug" and points to a very fine grade of bright leaf higher up on the stalk. The Wilmington warehouse is now ready to receive and store all consignments and will have its opening sale July 22nd. A large sale is expected and everybody is cordially invited to be present on that occasion.

CAROLINA EDITORS ADJOURN.

Thirty-first Annual Convention of Press Association Closed at Wrightsville Yesterday.

Election of Officers for Ensuing Year—Historian's Valuable Paper Delayed—Number of Interesting Discussions—Enjoyable Trolley and Steamer Excursions—Memorial Committee.

The 31st annual convention of the North Carolina Press Association came to a close at the Seashore Hotel, Wrightsville Beach, yesterday morning after election of officers for the ensuing year and an informal discussion of a number of interesting newspaper topics. The meeting of the editors this year, while not so largely attended as usual, has been very enjoyable and the discussions have been pleasant and of a very high order. Many of the delegates were accompanied by their wives and daughters adding greatly to the social success of the gathering. The weather has been all that could have been desired and Wrightsville beach has been honored by the presence of the men who made up the body. They came from all sections of North Carolina and were highly representative of the press in the State.

The morning session yesterday was called to order at 10 o'clock by President Marshall. The first matter taken up was the report of the Committee on Memorial, which was read by Mr. H. P. Deaton, of the Mooresville Enterprise. Sketches of the lives of Rev. Weston R. Gales, of the Montreat Revival; W. S. Herbert, of the Kinston Free Press, and E. C. Hackney, of the Durham Recorder, who departed this life since the the last meeting of the Association, were read. The report was unanimously adopted by a rising vote, and the secretary was instructed to send a copy to the families of each of the deceased members. It was decided that hereafter the president should appoint a Memorial Committee before the meeting of the Association to draft resolutions upon deceased members.

During the session several amendments to the constitution and by-laws were submitted and adopted by the convention.

Secretary Sherrill read a letter from Maj. H. A. London, of Pittsboro, expressing great regret that he could not be in attendance upon the councils. A letter was also read from Mr. Clarence H. Poe, historian of the Association and the talented young editor of the Progressive Farmer, Raleigh. He expressed much regret at his inability to be present and stated that his annual paper had been mailed to the Association. The paper was ordered spread upon the minutes of the meeting. It is published in full on the third page of to-day's STAR and will be found an able review of the past year in the newspaper world.

The report of Secretary and Treasurer Jno. B. Sherrill, of the Concord Times, was read and approved. Secretary Sherrill has been in harness fifteen years and the administration of the office has been par excellence. He is one of the leading editors in the State and his enthusiasm in the cause knows no bounds. The financial part of Secretary Sherrill's report this year shows a surplus of $430 in the treasury, which is remarkable when it is considered that the annual dues are only $1.

Following the secretary's report Mr. J. G. Boylin, ex-president of the Association and editor of the Wadesboro Messenger-Intelligencer, made a brief but very helpful talk upon the difficult question, "How to Secure Profitable Advertising." His conclusions were logical and his remarks were greatly enjoyed by the Association.

Mr. Frank R. Northrop, special New York representative of the Lexington Dispatch, Charlotte News, Raleigh News and Observer, with offices in the St. Paul building, 220 Broadway, made a splendid address upon the general subject of advertising and was listened to with greatest pleasure.

"The Duty of the Press as a Part of the Public School System," was interestingly discussed by Rev. P. R. Law, H. P. Deaton and W. A. Curtis.

"How May the Press Best Serve the Cause of State History," was treated by Dr. T. B. Kingsbury and R. F. Beasley.

"How to Increase Circulation," by J. W. Noell, J. A. Robinson and J. H. Quinn was a fruitful discussion, admitting of many timely suggestions and exchange of views.

Officers for the ensuing year were elected as follows:

President—H. B. Varner, of the Lexington Dispatch.

First Vice President—Benjamin Bell, of the Wilmington Messenger.

Second Vice President—Rev. P. R. Law, of the Lumberton Robesonian.

Third Vice President—J. D. Bivins, of the Albemarle Enterprise.

Secretary and Treasurer—J. B. Sherrill, of the Concord Times.

Historian—J. A. Robinson, of the Durham Sun.

Orator—R. F. Beasley, of the Monroe Journal.

Poet—A. B. Carter, of the Salisbury Sun.

Executive Committee—H. B. Varner, chairman; J. B. Sherrill, secretary; H. A. London, J. D. Bivins, W. C. Dowd, J. A. Thomas, W. F. Marshall.

Delegates to National Editorial Association—Thad. R. Manning, D. T. Edwards, P. R. Law, W. F. Marshall, J. A. Robinson; alternates, P. D. Gold, J. W. Noell, J. W. Lincke, A. Johnson, A. B. Carter, R. F. Beasley.

The convention adopted resolutions of thanks to the Seashore Hotel, Capt. Jno. W. Harper, the various clubs and all others who contributed to the enjoyment of its members while at the beach, and adjourned at 1 P. M. At 4 o'clock the visitors were guests of the C. R., L. & P. Co. for a delightful ride to the city. At 5:30 P. M. they went for a highly enjoyable excursion down the river on the steamer "Wilmington" as special guests of the clever Capt. Jno. W. Harper, who never has anything too good for the tireless newspaper fraternity. The editors and their friends reached the city upon their return at 7:30 o'clock. Many will leave to-day for their homes, while a few will remain for a few days more at the seashore.

GAVE DELIGHTFUL BOATING PARTY.

Mr. and Mrs. R. W. Wallace Entertained Party of Young People Last Night.

Mr. and Mrs. R. W. Wallace, of Wilmington, gave a delightful sailing party to a number of prominent young people at Wrightsville Beach yesterday evening. The sail was over Bank's channel and a short distance through the inlet to the sea.

Those who composed the party were: Mrs. E. W. Smith, Rocky Mount; Mrs. G. W. Monticastle, Lexington; Mrs. A. M. Hall, Wilmington; Misses Lucy Oates, Sadie Belle Mayer, Katheryne Jordan and Lillian Rhyne, Charlotte; Miss Octavia Boatwright, Wilmington; Mr. John Wilson, Richmond; Mr. B. C. Fennell, Charlotte; Messrs. R. H. Gwaltney, T. A. Baxter and F. P. Turrentine, Wilmington.

SATURDAY AT WRIGHTSVILLE BEACH.

Attractions This Year Are the Finest on Record—Pyrotechnical Display.

The fourth of July attractions at Wrightsville Beach to morrow will be by far the most numerous and meritorious on record at that gay resort. The big display of fireworks to be used at night on the Hammocks arrived last night and an expert from the works of Paine, the manufacturer, will get here to-day to have everything in readiness. The C. R., L. & P. Co., assure the public that the display will be well worth a visit to the beach. The other attractions are the Naval Reserves target practices and drills; the yacht races; the slack wire artist; the vaudeville performances, and others too numerous to mention.

Interstate Telephone Affair.

Capt. W. P. Oldham, local manager of the Interstate Telephone Co., furnishes the STAR with a statement in which he denies that any white man has been discharged from his employ and a negro substituted. Neither to his knowledge has any committee been sent to him to protest against the action charged. Capt. Oldham furnishes a detailed statement of his company's connection with the affair, which for lack of space this paper cannot print and for the further reason that the matter is a private one and one with which the STAR has nothing to do. Capt. Oldham says he has never promised any one he would not work negroes, but that he has never failed to work a white man instead of a negro when he could get one to do the work.

Controversy Over Alley Space.

A controversy between Dr. W. C. Galloway, who recently purchased a part of the Rothwell property opposite the City Hall, and the city authorities has sprung up over the ownership of two feet of the ten-foot alleyway between the Rothwell property and the Odd Fellow building. Dr. Galloway claims under his purchase two feet of the alley and the city, of course, is contesting for no curtailment of the public alley space adjoining. City Engineer S. P. Adams has surveyed the premises and submitted a blue print to Mayor Springer to whom the matter has been referred with City Attorney Bellamy. Dr. Galloway is removing a portion of the old Rothwell residence preparatory to building his new residence.

Attacked by Vicious Cow.

Mr. J. D. Sidbury yesterday received word of a serious injury which befel his brother, Mr. V. Sidbury, of Holly Ridge, on Wednesday. Mr. Sidbury was attacked by a vicious cow, which gored the thick part of his thigh through and through. The injured man is doing very well, but is suffering much pain. Mr. J. D. Sidbury will leave Saturday to be with his brother.

The fireworks at Wrightsville Beach will be glorious. Don't miss the sight. †

"FOURTH" AT CAROLINA BEACH.

Junior Order of United American Mechanics Will Have Celebration.

The celebration of the "Glorious Fourth" at Carolina Beach this year will be in the hands of the patriotic Junior Order of United American Mechanics and a most interesting programme of exercises has been prepared by the committee. There will be five trips of the steamer "Wilmington" during the day and everything possible will be done to preserve good order. It is the third annual excursion of Jeff Davis Council, Jr. O. U. A. M., and every member of that body will do his best to give the guests a good time. The boats will leave the city at 8:30 and 11 A. M. and 2:30, 5 and 7:30 P. M. The 8:30 and 2:30 boats will connect at the pier with the steamer "Southport" for Southport. Leaving the beach there will be four boats, at 12 M., 3:30, 6 and 9:30 P. M.

There will be music, dancing and refreshments all day at the beach. "Arra" will be present to amuse and startle with his wonderful performances on the "Roman rings." The fare for the round trip will be only 35c; to Southport, 35c.

Y. M. C. A. Membership Meeting.

There is much interest manifested by members in the mass meeting this evening in the Y. M. C. A. building. Every member of the Association is expected to be in attendance and all are assured a very pleasant and profitable time. The feature of the meeting will be an address by Dr. McClure on the "Value of the Association," but a number of other members will make talks of an interesting and entertaining character. There will be a programme of select music including a vocal solo by Mrs. F. A. Muse; a violin solo by Mrs. J. D. Edwards and a soprano solo by Miss Nora Scott. Refreshments will be served after the formal exercises.

Health Inspector Discharged.

Health Officer E. W. Hewlett, who has been at the detention hospital the past 21 days with smallpox, was released yesterday. He says his experience was a rough one but that he is glad to be conscious of the fact that he will be immune from the disease in the future. His first official act after being discharged was to raise a quarantine and fumigate a house at 111 South Tenth street where a colored patient had scarlet fever.

Special Excursion to Fayetteville.

The Atlantic Coast Line will run a special excursion train from Wilmington to Fayetteville, Monday, July 6th. The fare for the round trip from all stations as far as Ivanhoe will be $1 for adults and 50c. for children. The college baseball team of Wilmington will go up to engage the Fayetteville team as one of the features of a big celebration there during the day. Col. Waddell will be the orator for the occasion.

FRIDAY MORNING, JULY 3.

TREASURY SURPLUS AND FOREIGN TRADE.

The government's fiscal year ended Tuesday, and the surplus of revenue over expenditure, as recently indicated, runs above fifty millions, says the New York *Herald*, largely due to increased receipts from customs.

Although Congress at the last session made for the coming year appropriations aggregating 753½ millions—the largest in history excepting those of the preceding session, which included 50 millions for the isthmian canal—the indications are that with continued activity in trade the Treasury will continue its excessive absorption of funds at the present rate.

Completed data of foreign commerce for eleven months of the closing fiscal year are at hand, and while statistics are not usually attractive to the general reader these are of more than usual interest. While exports, including those of foreign origin, show a gain of 32½ millions in value, there was an increase of 113 millions in the imports—a fact which explains the greater revenue from customs.

In view of the increase in fortunes of recent years through profitable industries and augmentation in value of securities one might expect to find that the increased importations were mainly in luxuries, but perusal of the figures shows that this is not the case. True, about 30½ millions is represented by jewelry and precious stones, but this is only 7 millions more than in the corresponding period of last year.

There was a greater increase than this in the cotton goods imported, and nearly as great increase in tea. The greatest increase of all was 23½ millions in iron and steel and manufactures thereof. Next in order is raw sugar, of which we took 15 million dollars' worth more than we did last year, although the price was lower. Allied with the greater importations of steel and iron is the fact that we bought more than 10 millions' worth of bituminous coal from Great Britian and Canada, double the quantity we imported last year. Imports of manufactured copper increased about a third, showing a gain of 5 millions; chemicals used in the arts about a like increase, wool and woollens and increase of 2½ millions and fibres 3 millions—wholly in hemp from Manila.

The most remarkable decrease in any imported article is that of 10 millions in coffee, a joint effect of the lower price and a notable decrease in the quantity brought in as compared with the phenomenal importation of more than a billion pounds in the period of last year with which comparison is made. In recent years this country has profited by the almost continuous decline in the price of these two staples of largest importation—sugar and coffee. Since the establishment of territorial government in Hawaii, three years ago, products of the islands are not included in the statistics of our foreign trade. Notwithstanding the 4 million pounds we were then importing from that quarter has been dropped from the statements of imports the increase of consumption is such that the foreign figures are now nearly at their high water mark, imports from other parts of the world for the eleven months under review aggregating 3,806 millions of pounds.

Turning to our exports, we find that the chief shrinkage is in cotton, which fell off 26½ millions. Owing to the scarcity and high price of corn that has prevailed and to the close of the Boer war there has been a notable decrease in the exportation of horses and other animals, and of meats—bacon alone falling off 13 million dollars. The wonderful variety of the country's products is suggested by noting some of the things that were shipped in increased quantities and which served to more than offset the decrease in others. We increased our exports of timber and lumber by 7 millions, our exports of unmanufactured tobacco by 9 millions and our exports of fruits and nuts by an even greater sum. The upshot of it all is that the value of our exports for the eleven months exceeds that of the imports by 381 millions.

This falls 91 millions short of the excess for the corresponding period of last year, but it would pay all freights and insurance and earnings on foreign capital invested here and still leave this country a handsome balance abroad but for the foreign borrowings of our promoters' syndicates, which have offset the merchandise credits and made it necessary to transmit gold to Europe.

THE ORANGE COLONY WILL PAY

The Baltimore *Sun* says that the Legislative Council of the Orange River Colony, by the vote of its unofficial as well as its official members, decided recently to give $25,000,000 toward the payment of the Boer war debt, the money coming, however, out of revenue received by the colony from minerals hereafter discovered. This "payment" is not wholly a joke, though it looks like one. Minerals are constantly being discovered, and in the opinion of the Surveyor-General "10 years hence this will be a large mining colony." The increase of revenue from minerals this year is 10 per cent. The Transvaal repays, it is well known, $150,000,000 of the war debt, but it is a windfall if the Orange Colony also makes a return. The activity in the Transvaal at present may be inferred from the fact that the revenue in the nine months ended with April was as much as $20,800,000. The imports with the four months ending with April were worth $40,000,000. These figures are surprising when we consider that not a full year has elapsed since the war ended.

CURRENT COMMENT

—— Boston's love for the negro has balked at the request to furnish entertainment in the homes of the whites for negro teachers attending a convention.—*Washington Post, Ind.*

—— According to the law as now expounded, when a man is shot down on the street no minister can pray that he live, and if he dies no newspaper can express opinion upon his slayer's deed. Quay and Pennypacker should come to South Carolina to learn how to muzzle not only the press but the pulpit. But there are those in South Carolina who cannot be gagged.—*Columbia State (Dem.)*

—— It is doubtful, however, if an announcement from Mr. Cleveland at this time would assist in bringing the two wings of the party together. On the contrary, the chances are it would help to keep them apart. As long as there is a possibility of the nomination of Mr. Cleveland the Bryanites will be more willing to accept a candidate that has the approval of what were termed gold Democrats in the last Presidential campaign. It may be a good thing for the party, therefore, for Mr. Cleveland to make no announcement as to whether he would accept the nomination of his party for President or not. As a matter of fact he isn't called on to say whether or not he would accept it until questioned about it by some one having authority to do so.—*Savannah News, Dem.*

— The *Times* says that Mr. D. C. Mangum, one of the best known farmers in Wake county, had on the Raleigh market a few mornings ago 3 dozen cabbage that weighed 300 pounds.

— Newbern *Journal*: As showing the extremely low price of land in Eastern North Carolina, forty-nine acres of upland was sold at auction in this city, Thursday, for sixty dollars. Some of the land was cleared.

— Smithfield is somewhat on a boom. Twelve new dwellings have been erected in that town during the past six months and several more are in course of construction. A new cotton factory is also being built near the A. C. L. depot.

— Winton special to Raleigh *News and Observer*: A negro, weighing about 160 pounds, and about twenty-five years old, by the name of Henry Gatling was caught and lodged in jail here to-day on the charge of attempted rape on Mrs. Robert S. Maddry.

— Late Saturday night, as the result of debauch, Shade Foreman, a negro, was murdered in Washington, N. C. Wm. Tetterson is in jail for the crime. He is also a negro. The 38 calibre pistol ball entered just over the right eye and went to the base of the brain.

— The Wadesboro *Messenger-Intelligencer* says that Mr. J. H. Wooley, of Cherryville, a distiller, has purchased several lots in Wadesboro and has an option on fifteen acres adjoining, which however, does not lie in the corporate limits. The presumption is that he intends to put up a large distillery in Wadesboro.

— Charlotte *Chronicle*: Mr. F. Miller, a Southern Railway flagman, running on northbound through freight train No. 72, met a most horrible death, at a point about 2 miles this side of Concord, early this morning. He was in the act of coupling the freight train and the northbound local passenger train, when he fell between the caboose car and the engine of the local and was mashed to death.

— Winston *Sentinel*: Albert T. Younger Wade and Miss Susie E. Jefferson, and John Lewis and Miss Lelia A. King, all of Spray, eloped to Martinsdale, Va., Sunday night and were married. —— Mr. Felix Leonard died suddenly Monday near Midway, Davidson county. The deceased had just returned home, when he fell and soon expired. Mr. Leonard was about 60 years old, and he was one of Davidson's prominent farmers.

— Lexington *Dispatch*: Jude Shaw is badly needed in Lexington to hold another term of court to break up the "sightless tigers." Liquor and beer is being sold here freely again. Sunday, it seems, is the best day for the business. More men were drunk on the streets last Sunday than usual. One man was drunk and disorderly Saturday night and finally landed in jail, and another young man, by the aid of three or four men, broke in jail Sunday night. These Sunday performances are almost as bad as a Western town, where the saloons are wide open. It is a disgrace and shame, and something should be done to stop this liquor selling and drunkenness on Sunday.

— Rocky Mount *Motor*: Milton Johnson, colored, killed one of the largest snakes we have seen for some time on Monday. He was fishing in a small pond near his home, about two miles from Rocky Mount, when he saw what he thought was a black log in the water. Later he saw it move and then jump. Then he saw it was a huge water moccasin. He secured a pole and attacked the snake with all his might. After a fight of more than thirty minutes he succeeded in dispatching his snakeship. From actual measurement the snake proved to be five feet long and ten inches around the largest part of its body. Johnson found that the reptile had swallowed two large bull frogs, which were alive when released from the snake.

— Monroe *Journal*: A darkey on the place of Mr. Ellison Funderburk lost 40 young chickens one night last week. Messrs. G. W. and Frank Montgomery went over with their dogs and caught four big minks in a rock pile near the negro's barn. The next night Mr. C. A. Montgomery lost 25 chickens and the same young men went over and killed three minks in five minutes. —— Mr. U. T. Tadlock of Buford reports that his son did some big work last week in killing hawks and snakes. He caught two in a steel trap, shot one and killed two with a stick, thus laying out a whole family of the chicken eaters. Sixteen snakes also fell before his arm, the largest one seven and a half feet long and sixteen inches around.

SCALP HUMOURS

Itching, Scaly and Crusted With Loss of Hair

Speedily Cured by Cuticura Soap and Ointment

When Every Other Remedy and Physicians Fail.

Warm shampoos with Cuticura Soap and light dressings of Cuticura, the great skin cure, at once stop falling hair, remove crusts, scales and dandruff, soothe irritated, itching surfaces, destroy hair parasites, stimulate the hair follicles, loosen the scalp skin, supply the roots with energy and nourishment, and make the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many antiseptic purposes which readily suggest themselves to women, as well as for all the purposes of the toilet, bath and nursery. Cuticura Soap combines in one soap at one price the best skin and complexion soap and the best toilet, bath and baby soap in the world.

Complete treatment for every humour, consisting of Cuticura Soap, to cleanse the skin, Cuticura Ointment, to heal the skin, and Cuticura Pills, to cool the blood, may now be had for one dollar. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning and scaly humours, eczemas, rashes and irritations, from infancy to age, when all else fails.

IRRIGATION IN THE EAST.

Interesting Figures—Profits Per Acre on Some of the Main Crops.

In the east irrigation is not, as in the west, absolutely necessary for the raising of any crops; but, like fertilizing or thorough cultivation, it is a means of increasing the returns from land. The whole question is whether it will pay. A series of experiments extending over several years at the Wisconsin experiment station at Madison show a marked increase in yields of farm crops. The average increase in the yield of clover hay on irrigated land over that from unirrigated land has been 2.5 tons per acre. The average increase in yield of corn has been 26.95 bushels per acre, and potatoes show a gain of 83.9 bushels per acre. The annual cost of irrigation at Madison has been $6.68 per acre, not including any interest on the investment, but including all extra labor. At current prices this leaves a net profit from irrigation of about $20 per acre on hay, $11 per acre on corn and $73 per acre on potatoes. The conditions of soil and climate at Madison do not differ from those of the middle west generally, and the results given above show that where water can be obtained without too large an outlay irrigation as a part of intensive farming is very profitable.

For Special Crops on Sandy Soil.

Another series of experiments was begun for testing the effect of irrigation and fertilization on sandy soils, such as are common in large sections of Michigan, Wisconsin and Minnesota. These lands are poor in plant food and retain so little moisture that all attempts to farm them have failed. The experiments included the supplying of both manure and water. Manure alone was of little use, as there was not water enough to make the plant food available. Water alone produced good results, but the application of both gave the best results. The cost of irrigation was $6.70 per acre, and the net gain from irrigation was as follows: Potatoes, $30 per acre; corn, $1 per acre; watermelons, $58 per acre; mushmelons, $45 per acre. From these experiments it seems that with special crops irrigation of the sandy lands is profitable, but the increase in yield of corn is not enough to justify the expense of securing a water supply.

In New Jersey water has been used on small fruits and vegetables, and the added returns due to irrigation vary a great deal with the seasons. Some years no irrigation is needed, in others all crops need it, but in most years some crops are helped by it. Professor Voorhees, who has charge of this work, reports that in his opinion irrigation where tried has paid well. Pumping from streams or wells is the most common way of getting water for fruit and garden irrigation. Small plants furnishing water enough for from five to ten acres, including pump and engine, cost from $200 to $500.

COTTON MARKETS.

NEW YORK, July 2.—The cotton market opened steady, three points higher to three points lower, and following the call showed continued irregularity for the time, with old crop positions showing further weakness under the lower cables and realizing, while the new crop months were worked upward seven to eight points above the opening under fears of a very bullish bureau report to-morrow and covering. Later, however, the entire list turned easier under liquidation that was more or less general and which if the bull contingent did not participate in, they at least did not attempt to discourage. The selling movement was encouraged by the excellent weather shown on the morning map and receipts which again bid fair to turn out better than expected. August sold down to 12.66, the other months from nine to thirteen points down. Then the list was rallied by a renewal of bull support and by the appearance of heavy rains in Texas accompanied by reports of trouble as a result of boll weevil, though a dispatch from Texas circulated this morning stated that a species of bug had made its appearance which without harming cotton was a deadly enemy to the boll weevil. This report received little attention however, and all through the afternoon the market ruled steadier though somewhat of an irregular nature, prices recovering seven to fourteen points of their midday losses. The close was quiet and steady, net ten points lower to eight points higher. Total sales futures estimated at 200,000 bales.

PREMATURE AGE

Is Brought on by a Failing Body, as Many Wilmington Readers Know.

Failure to provide for the welfare of the body causes the body to fail, and brings on premature age. Men of 35 who are afflicted with kidney troubles walk about like men of 75. It's easy to cure it, and to regain the elastic step that you should have. A well known Wilmington man tells how.

J. A. White, electrician for the Coast Line R. R., at Rocky Mount, residing at 206 North Sixth street, says: "I have had great trouble with my back, right across the loins, and when I sat still for a while I hardly knew how to move and when I did you would think I was seventy-five years old. They are pains all over me and I could not tell where they were to strike me. I used liniments and lots of remedies, but nothing did me any permanent good until I procured Doan's Kidney Pills at Bellamy's drug store and used them. They helped me in a very short time and seemed almost to oil up my joints, in fact, I have not had the pains since I used them."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

DR. MOFFETT'S TEETHINA (TEETHING POWDERS)

BLACK SPRINGS, Ark., Sept. 18, 1901.

Rev. J. W. Berry (of Arkansas Methodist Conference, writes:) "Enclosed find fifty cents for which please mail me two packages of "TEETHINA." We wonder how we have raised children without it. The other day a lady in Missouri sent me a package and it came at a most opportune time; our babe was in a serious condition; his bowels had been in bad condition for days, and nothing that we gave did any good; the second dose of "TEETHINA" gave perfect relief and he has had no further trouble. Other members of the family have used it and every dose has been a perfect success.

HISTORIAN'S PAPER.

Prepared for the Thirty-first Annual Convention of N. C. Press Association, Wrightsville Beach, This Week.

(by Clarence H. Poe, Editor "Progressive Farmer," Raleigh, N. C.)

It may be well for me to explain in the outset that I have depended solely on my personal observation of State exchanges for aid in the preparation of this essay, but as these exchanges include nearly all the papers published in North Carolina, I hope that my record is fairly complete.

It is fitting that I should begin with a tribute to the brethren who have passed into the Great Beyond since our last meeting. In the first four years of my membership in this Association, if I remember correctly, death but once invaded our ranks, Mr. J. Kirkland Hill being the solitary victim. But in the last twelve months, four North Carolina editors, two of them honored members of our body, have walked the way of nature.

Mr. Walter S. Herbert, editor of the Kinston Free Press for sixteen years prior to his death, died last November, at the early age of thirty-nine years. He went into a printing office while a mere boy, and worked in Battleboro and Rocky Mount before going to Kinston in 1886. That year he bought a half interest in the Free Press and in 1889 became sole owner. An excellent newspaper man, he made his paper a powerful factor in the upbuilding of Kinston, and his death was deeply lamented by his townsmen, as well as by his brother craftsmen.

On March 10th, Mr. E. C. Hackney, editor of the Recorder since 1881, died in Durham. A native of Chatham county, he graduated at Trinity College, and practiced law for a time before entering journalism. Like Mr. Herbert, he was a young man—only 47 years of age—and one of the most faithful and popular members of the Association.

Major Patrick F. Duffy, of Wilmington, died just a month ago to-day. He was of Northern birth, but had been in this State since early manhood. He once edited the Greensboro Patriot, and was for a time connected with the Charlotte Observer and the Progressive Farmer. Since 1888 he had been associate editor of the Wilmington Star. Maj. Duffy was a facile writer, a tireless worker, and a quiet and unassuming gentleman. "He lived for his family," says his old associate, Capt. Bernard. "A more devoted husband and father never crossed the threshold of a happy home."

The editor of the Elizabeth City Carolinian, Mr. Palemon John, has also died since our last meeting. Mr. John was a Northern man, and not in accord with the dominant political sentiment of the South, but such was his temperament and character that even in the Black Belt of North Carolina, he kept the respect and friendship of his political opponents.

Turning now to other matters, I am reminded that Charlotte has made more journalistic history since our last meeting than has any other town in the State. The new evening daily, the Chronicle, now disputes the field with the News. The Chronicle's editor is Mr. Howard A. Banks, who made a reputation for excellent wit on the Observer, and the city editor is Mr. W. T. Underwood, who had estimable training as Greensboro press correspondent and as editor of the Textile Excelsior. On the other hand, the News force has been strengthened by the addition of Dr. A. J. McKelway as editor-in-chief and such a combination as Dowd, McKelway and Vincent is nowhere to be lightly reckoned with.

Among new editors of old papers, I should mention Mr. Ashe of the Wilmington Messenger, Mr. Edwards of the Kinston Free Press, Mr. Peterson of the Lumberton Argus, Mr. Coble of the Statesville Mascot, and Mr. Briggs of the Waynesville Courier; they are doing work that would be creditable to veteran journalists, and we are glad to welcome them to our ranks.

Newly established papers are the Asheville News, Salisbury Reasoner, Hamlet Outlook, Dunn Guide, Raleigh Harbinger, and Catawba County News. The Concord Standard has been consolidated with the Times. The Wadesboro Courier has suspended. The Shelby Aurora is under new management and is now Republican in politics. Mr. E. M. Rollins has succeeded Mr. Hackney on the Durham Recorder. Mr. Rodwell has retired from the Warrenton Record in order to devote himself to educational work, and Mr. Watts has sold the Statesville Mascot in order to give his entire time to politics. The Raleigh Times has changed hands and Mr. Caddell is proving himself a capable editor. Mr. Roscoe Mitchell, who added to the gayety of nations by his Fairbanks boom last winter, is again out of harness. The Gastonia Gazette and Waynesville Courier, formerly weekly, are now published semi-weekly, and seem to have found the changes profitable.

There has been, I think, general improvement in the appearance of our papers since our last meeting. Not to mention new type outfits and better press work, many publications have adopted a more convenient form. Four papers, the Raleigh Christian Advocate, Biblical Recorder, North Carolina Baptist and Progressive Farmer, have changed from an 8-page to a 16-page edition, while among those that have recently abandoned the four-page for the eight page size, I recall the Cleveland Star, Greenville Semi-Weekly Reflector, Davidson Dispatch, Thomasville News, Shelby Aurora, High Point Enterprise, Kinston Semi-Weekly Free Press, Statesville Mascot and Maxton Scottish Chief.

And not only are our papers better looking than a year ago, but I think that they are also better edited. Just here one recent innovation deserves mention. This is the tendency to vary the severely serious and formal editorial style with some department of light reading—conversations with subscribers or with prominent persons, good stories about men of local renown, and opinions on miscellaneous subjects not quite weighty or pressing enough for editorial discussion. Mr. Irwin E. Avery, whose "Variety of Idle Comment" has been so much praised, is perhaps the fittest exponent of the new idea, while the Monroe Journal, Cleveland Star, Biblical Recorder and other papers have recently established quite creditable departments based on the same principle.

Finally, I think it would be improper to conclude this paper without recording the fact that three members of our Association were acknowledged leaders of the North Carolina Senate, last winter, and did their State much valuable service. Messrs. London, Beasley and Hoey reflect credit on our profession in whatever positions they are placed. Nor was it on the floor of the Senate alone that the editorial quilldriver was in evidence Mr. King represented Pitt in the House, while Messrs. Cobb, Shipman and Maxwell rendered efficient clerical service to the Assembly.

But in all that I have said, my friends, I have not given you the real history of North Carolina journalism this last year, and I fear that I cannot. It is easy to talk, as I have done, of the eddies on the surface, but to deal with the powerful currents beneath is a more difficult task. I believe, however, that in the highest and broadest sense we have made much progress. The North Carolina editor, if I have read aright, is coming into a new consciousness of his influence and his responsibility as a factor in the development of his section and of his State. Ours is largely a rural people, and the press is leading the fight for better schools, better roads, rural mail delivery, school libraries, better farming methods, and other improvements that are revolutionizing country life. The State's manufacturing interests are also growing more prosperous and powerful, and the press is playing a notable part in promoting industrial enterprises of all kinds. It is indeed a high privilege that is given us—that of aiding the development of a State of such varied natural resources and a people of such strong and sturdy character. And I believe that more and more our newspaper men are consecrating themselves to this work of State building. That is the history, tha is the epic, that I should like to write. Compared with this supreme fact, the little story of our entrances and exits is of small importance. If we have earnestly set ourselves, as I believe we have, to build up the waste places of old North Carolina, to send the light of learning and opportunity to her sons and daughters, and to add the progress and prosperity of a New South to the honor and heroism of the Old, then our work will endure long after our names have been forgotten and the ink will have faded from the pages we have printed.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Charles Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had Consumption so bad that if I walked a block I would cough frightfully and spit blood; but, when all other medicines failed, three $1.00 bottles of Dr. King's New Discovery wholly cured me and I gained fifty-eight pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung troubles. Price 50c and $1.00. Trial bottles free at R. R. BELLAMY'S drug store. †

How Professor Blackie Apologized.

Professor Blackie was lecturing to a new class, with whose personnel he was imperfectly acquainted. A student rose to read a paragraph, his book in his left hand. "Sir," thundered Blackie, "hold your book in your right hand!"—and as the student would have spoken—"No words, sir! Your right hand, I say!" The student held up his right arm, ending piteously at the wrist. "Sir, I hae nae right hand," he said. Before Blackie could open his lips there arose a storm of hisses, and by it his voice was overborne. Then the professor left his place and went down to the student he had unwittingly hurt and put his arm around the lad's shoulders and drew him close, and the lad leaned against his breast.

"My boy," said Blackie—he spoke very softly, yet not so softly but that every word was audible in the hush that had fallen on the classroom—"my boy, you'll forgive me that I was overrough? I did not know, I did not know!" He turned to the students, and with a look and tone that came straight from his heart he said,—"And let me say to you all I am rejoiced to be shown I am teaching a class of gentlemen." Scottish lads can cheer as well as hiss, and that Blackie learned.

Flippant Young Writers.

Dr. Edward Everett Hale says in his reminiscences: "I think nothing is more sure to drive an office editor crazy than to have some young enthusiast say, 'I threw this off last night,' or 'I send you fresh from the pen' this or that. People who print magazines for a million readers do not want to give them that which has been thrown off. It is much better to send them something which has seasoned in the back of your table drawer for one, two or three years."

THE BEER THAT MADE MILWAUKEE FAMOUS

THIS IS A PROGRESSIVE AGE.

IF I AM ANY JUDGE OF THE TIMES I THINK THIS COUNTRY IS NOW IN THE MOST PROGRESSIVE STAGE IT HAS EVER BEEN IN

The laboring man is drawing more salary as well as all skilled labor, which has advanced in price. Everything raised by the farmer is selling at prices sufficient to bring him a profit. There seems to be work and work plenty for everybody to do. While our people are making their strides to the front I am trying to keep in the procession. My business is to sell dry goods, shoes and clothing, millinery, house furnishing goods and trunks. Our Big Store on Front street is receiving New Goods every day—we have added a big line of new white Lawn this week; this line is extra good value, 5c to 25c; a nice line of 32 inch Dress Lawns with small dots and stripes and white grounds, pretty patterns, 5c yard; one line 25c lawns in colors, bought cheap, we will run at 12½c yard.

In Overalls we have secured the agency for the Headlight Overalls, made in Detroit, Mich., and we think they are the best made. They are sold on a guarantee made of the best denin, with felled seams throughout; we have four different lines of colors and all sizes; remember the name, The Headlight; we expect to prove to the good trade of this city that wears overalls that we have the line they want. The price is $1 a garment or $2 a suit and the caps are 15c; we are the sole agent for this overall for this city and we would be glad for you to look at them and compare them with other makes; we don't simply say they are as good, but say they are better.

For Trunks—This is the season when if you are leaving home you want a nice trunk; we handle trunks and have a big line to show; we have a nice line of roller tray trunks for the ladies and we carry three factories' lines. The price runs from $7.50, $9, $10 and up to $15 each; canvas covered trunks, with leather straps and iron bound, $3.50 to $6 each; all styles in packing trunks from 50c up to $2 each.

A full line of leather suit cases for travelling men, $3.50, $4 and up to $6 each. Leather hand satchels from 90c, $1.25 and up to $5.

For Summer millinery we have lots of white Duck Hats and Tuscan Flats, fancy Veils with embroidered edge Silk Hats, made on frames. White and black chiffon hats and everything that is in an up-to-date millinery store. New Ribbons—Just received to-day a nice line of new Taffetta Ribbons, No. 16 and 22 at 10c. A nice line of fancy Ribbons, No. 50 at 10c per yard.

All kinds of Velvet ribbons.

Wilmington's Big Racket Store has been very successful this year. We have sold more goods than ever. We have got the goods and we want to sell them.

Remember the new line of overalls—The Headlight. We expect to make this line of overalls carry the procession in the head ranks of the overall business.

FRIDAY MORNING, JULY 3.

FREIGHT RATES DISCUSSION.

Conference of Railroad Officials With Representatives of Ocean Steamship Company.

By Telegraph to the Morning Star

WASHINGTON, July 2.—Freight officials of the Atlantic Coast Line and the Southern Railway held a conference here to-day with representatives of the Ocean Steamship Company, operating between New York and Savannah.

The Atlantic Coast Line was represented by H. M. Emerson, traffic manager; James Menzies, general freight agent for the divisions south of Savannah; J. W. Perrin, assistant general freight agent for the divisions south of Charleston, S. C., and W. I. Redford, who not only represents the Atlantic Coast Line, but looks after the eastern freight interests of the steamship company.

The Southern Railway was represented by W. A. Turk, traffic manager; E. A. Niel, of Atlanta, general freight agent, and a number of local representatives of the freight department. The steamship company was represented by the general officers of the company.

The meeting was devoted to a general discussion of freight rates. Those in attendance declined to give details of the agreement reached, but expressed their satisfaction with the general result of the conference.

RETALIATION URGED.

Senator Hopkins of Illinois Discussed the Negro Question.

By Telegraph to the Morning Star.

CHICAGO, July 2. — Retaliation against the Southern States that have disfranchised negroes was urged last night by United States Senator Hopkins who was one of the speakers at a meeting called to condemn the action of the persons who took part in the Belleville, Ill., lynching. He denounced the lynchers in strong terms and then discussed the negro question.

"In my eighteen years of service in Congress, it has been my pleasure to remark the ability of a score of negro Congressmen who represented at one time the States of Mississippi, Alabama and Louisiana," he said. "It is a shame and a disgrace to these States there are no longer men of color in their Congressional delegations. It is a shame to the nation that the hewers of wood and drawers of water in these States are not represented by men of their own class, and until public sentiment shall be aroused and these States return negroes to Congress, it will continue to be a disgrace to the people of the United States."

SCHOONERS DAMAGED.

Rebecca Palmer and Young Brothers in Collision Off Montauk Point.

By Telegraph to the Morning Star.

VINEYARD HAVEN, MASS., July 2.—With bowsprit and head gear gone, the five-masted schooner Rebecca Palmer reached this port last night, bringing news of a collision between the Palmer and the four-masted schooner Young Brothers, off Montauk Point, last Sunday morning. The Palmer was bound from Newport News to Boston with coal and the Young Brothers was on her way from Bath, Maine, to Washington, with ice. The collision occurred between 12 and 1 o'clock in the morning in a thick fog. The extent of the damage to the Young Brothers was not ascertained, but as the vessels came together head on it is thought she may have fared about as badly as the other schooner and that she will be able to reach port. The Palmer proceeded for Boston.

ASSAULTED A WOMAN.

Negro Captured in Union County and Taken to Jail in Monroe.

By Telegraph to the Morning Star.

CHARLOTTE, N. C., July 2.—John Osborn, the negro who committed a criminal assault on Mrs. Lizzie Wentz, a white woman aged sixty years, at her home in Union county last Sunday, was captured at Indian Trail today. The negro was arraigned before a magistrate, who committed him to jail at Monroe. Officers started out with him for that place to-night at 7 o'clock. The route is over a country road, ten miles, and up to midnight the prisoner had not reached Monroe.

LOSS NEARLY $100,000.

The Fire at Greenville, N. C.—Originated in the Parham Warehouse.

By Telegraph to the Morning Star.

GREENVILLE, N. C., July 2.—Fire, which originated in the Parham warehouse in this city early this morning, destroyed property estimated at nearly $100,000; partially insured. The fire for a time threatened the destruction of the entire town, and it was only by extreme efforts of the firemen that the flames were checked. The larger portion of the tobacco section was destroyed, besides several shops, warehouses and residences.

INTERNATIONAL AUTOMOBILE RACE.

Contest for James Gordon Bennett Cup Won by Member of German Team.

POOR SHOW BY AMERICANS.

The Winner Covered the Distance, 370 Miles, in a Little Over Six Hours and a Half—No Very Serious Accidents Reported.

By Cable to the Morning Star.

GRAND STAND, BALYSHANNON, July 2.—The International Automobile race for the James Gordon Bennett cup was run to day and won by Jenatzy; a a member of the German team, who covered the distance of 370 3-4 miles in six hours, thirty-six minutes and nine seconds, including the stops imposed by the regulations. Two members of the French team ran each other so close for second place that it will not be known until Friday whether De Kineff or Farman is entitled to the honor. Only one minute divided them. It is thought likely that De Kineff's claim to second place will be upheld. The most remarkable features of the great race were its practical immunity from serious accidents and the wretched showing by the American team.

At Balyshannon, which is the headquarters for the race, no news had been received to-night of any one being injured except one of the contestants, the English crack Jarrott and his chauffeuer. Jarrott had a miraculous escape from death and now lies with a broken collar bone and a badly bruised body. His chauffeur also has a fractured collar bone, besides a broken leg. Both, however, are doing well. The accident occurred through the steering gear of the favorite English car getting out of order when going at full speed. Instead of turning a corner the automobile ran straight into the bank at the side of the road and was smashed clean in two. How the occupants escaped death is more than they themselves can explain. Stocks, another Englishman, had his car disabled through the same cause, but was not hurt.

Bacon de Caters, after making a splendid race, broke the axle of his car, and Foxhall Keene retired because of a similar accident. Moers and Winton, of the American team, both failed to finish owing to a derangement in the mechanism of their cars, and Owen, the third member of the team, only completed five out of the seven laps of the race. Thus only five out of twelve completed the course. One of these, Ege, the holder of the cup, came in long after the race was officially declared over.

The poor showing of the American competitors is generally attributed to the excessive lightness of their cars,

All the arrangements for the race worked well, and the Irish peasants to-night are once more venturing on the roads, though with fearful eyes and keen ears, for the rear motors as they come down the hill of Kildare. The Frenchmen received some consolation in not getting the cup by gaining the prize offered by the Hon. J. Scott-Montague, M. P., to the team whose members all finished.

The general opinion expressed by the British authorities, including the Earl of Mayo and Henry Norman, M. P., is that the race was the most successful ever run and is likely to do much to remove the antagonism towards similar contests and motors in general.

THE STRIKE IN RICHMOND.

Street Cars Running on All Lines and No Disturbance of Any Sort.

By Telegraph to the Morning Star.

RICHMOND, VA., July 2.—Street cars were run on both of the Manchester lines, and through Manchester to Forest Hill park to-day and to-night, and at 11:30 o'clock there has been no disturbance of any sort even approaching seriousness. There were four militiamen on each car, and several hundred soldiers had been scattered through Manchester and its suburbs, on request of the authorities of the city and county.

The line to Seven Pines was also opened this afternoon and so far no resulting disorder of any kind has been reported. All but one, and that a very important one, of the city and suburban lines are now being operated day and night, with but one militiaman to each car. Passenger travel is picking up perceptibly. The strikers, however, are holding out firmly. A number of them volunteered to act as special policemen in Manchester.

POSTAL DEFICIENCY.

Estimated at the Department at $4,617,203 for the Fiscal Year.

By Telegraph to the Morning Star.

WASHINGTON, July 2. — Captain Castle, the auditor of the treasury for the Postoffice Department, to-day made the official estimate that the postal deficiency for the fiscal year just closed will be $4,617,303. The deficit for the previous year was $2,961,170. This big increase is attributed to the enormous increase in expenditures for the rural free delivery service during the past year. The receipts of the postal service for the year were $134,268,609 and the expenditure, $138,885,812.

Postmaster General Payne, accompanied by Mrs. Payne, left on the congressional limited over the Pennsylvania railroad this afternoon en route to the Catskills where they will remain over the fourth of July.

EDUCATIONAL ASSOCIATION.

Discussions by Prof. Harrison, Davidson College, and Dr. Hume, University.

By Telegraph to the Morning Star.

ASHEVILLE, N. C., July 2.—The Southern Educational Association began its second day's work with a discussion of "Requirements in Study of English for Admission to College," by Prof. T. O. Harrison, of Davidson College, North Carolina. Dr. Thomas Hume, of the University of North Carolina, spoke of the "Ethical Value of Literature," and emphasized the need of its being taught in common schools, giving as a reason therefor the fact that only twenty per cent. of those who attended public schools ever go to college, and hence receive little if any instruction in English literature.

The King of England has replied in courteous terms to King Peter's notification of his accession to the throne of Servia, wishing him a prosperous reign and hoping it will bring peace, order and justice to the country. King Edward's reply caused great satisfaction at Belgrade.

PETITION ON BEHALF OF JEWS IN RUSSIA.

Will Probably be Delivered to the State Department in About a Week—Will be Forwarded Without Delay.

By Telegraph to the Morning Star.

WASHINGTON, July 2.—Acting Secretary of State Loomis has been notified that the petition in behalf of the Russian Jews will probably be delivered at the State Department or at Oyster Bay in about a week. The document is being sent from one city to another in order to secure the signatures of the representative Hebrews and American publicists, in every section of the country which can be easily reached. Without delay and immediately upon the receipt of the petition by the United States government it will be dispatched to Mr. Riddle, United States charge, at St. Petersburg. It will be accompanied by a note of transmittal instructing Mr. Riddle exactly what disposition to make of the petition, for there is no intention here to place any undue responsibility on the charge in this matter. The department does not at present expect to publish that note, so that its nature is a matter of speculation, the weight of opinion being that Mr. Riddle will be instructed to inquire of the Russian government whether it is willing to receive a petition, the nature of which will be plainly indicated by him. If there is a negative response Mr. Riddle will so notify the State Department and that probably will end the efforts of the department in connection with the petition.

The President, through Secretary Hay, has informed his Jewish callers that he could not tell what reception the petition would meet with at the hands of the Russian government and should the petition fail of a reception after Mr. Riddle's efforts, it would absolve the President from further pursuit of the matter.

Meanwhile, and until the petition is received here, there is nothing more to be done, it is said. Through the newspapers in an unofficial but quite adequate manner, the governments of the United States and Russia have acquainted each other with their respective attitudes concerning the Jewish petition and all that remains is to wait the working out of the programmes.

Count Cassini, the Russian ambassador, called at the State Department today to present Theodore Hansen as charge during the absence of the ambassador.

It developed that Count Cassini discussed with Acting Secretary of State Loomis the statement issued last night relative to the Jewish petition and Manchuria, not by any instruction from his government in any formal way and Mr. Loomis' remarks were under the same conditions, so that the substance of the conference was a simple repetition of the published statements of the probable course and attitude of the two countries regarding the petition and Manchuria rather in the way of furnishing information than with the intent of binding either party to an understanding. Thus, it appeared that Russia still consistently held to the theory that she, like the United States, holds that there should be no interference in the internal affairs of nations. However, both parties parted in the greatest good humor, which was a source of gratification, as it probably will be their last meeting before the ambassador sails for Europe.

MISHAPS TO CUP DEFENDERS.

One of Crew of Columbia Washed Overboard and Drowned— Constitution Damaged—Reliance Buffetted.

By Telegraph to the Morning Star.

NEWPORT, R. I., July 2.—This afternoon, for the first time in the history of American 90-footers, a fatal accident occurred. Carl B. Olsen, a seaman on the old cup defender Columbia, and one of the best men in the crew, was washed from the bowsprit just before the yacht reached the first turn in to-day's race and was drowned. The other men who were out on the bowsprit with Olsen were washed in board by the same sea that swept him away. Both managed to get another hold on the bowsprit and were quickly hauled on deck by members of the crew. When the Columbia lifted from the big wave into which she had plunged, Olsen was seen almost at the stern, clinging to the bobstay, but before assistance could be given him the sloop dipped into another great comber and he was not seen afterward.

To-day's race was also marred by a mishap to the Constitution. Soon after the start she carried away the jaws of her gaff, and the great steel spar swinging forward buckled in the center. The main sail was ripped clear across several times and rendered practically worthless.

The Reliance received the severest buffeting she has had since being launched. The sea was a terrific one for racing yachts and when the yacht reached her moorings it was noticed that she had a big dent in the bronze plating close to the water line on the port blow. When Mr. Iselin was asked what caused the dent he replied that the waves had hammered the metal in as the craft beat to windward.

Had there been no accidents the record for an 80-mile triangular course would have been cut down considerably. As it was, the Reliance came to the finish water line from the second turn in 47 minutes and 10 seconds, the fastest ten mile leg ever sailed. The Reliance finished the race alone in 2:59:20.

CLOUDBURST IN TEXAS.

Twenty People Are Reported Killed—A Heavy Property Loss.

By Telegraph to the Morning Star.

SAN ANTONIO, TEXAS, July 2.—A cloud-burst to-day visited the southwestern section of Texas, causing the death of several persons and entailing a heavy property loss. No accurate reports of the loss of life can be obtained, as the telegraph wires are down in the storm-swept section, but enough is known to warrant the belief that at least twenty people, mostly Mexican laborers, and farm hands, perished in the flood.

The heaviest damage was sustained by the San Antonio and Aransas Pass railroad. Several thousand feet of its track, and one large bridge were swept away. Train service has been suspended in the affected district.

TERRIFIC STORM IN NEW YORK CITY.

Four Deaths from the Heat and a Score or More of Prostrations.

THE STORM CAUSED A PANIC.

Three Persons Killed and Many Injured. Wind of High Velocity—Pedestrians Blown from Their Feet—Many Places Struck by Lightning.

By Telegraph to the Morning Star

NEW YORK, July 2.—A terrific storm here to-day followed a period of intense heat. There were four deaths from the heat to-day and a score or more of prostrations. Already three deaths, directly traceable to the storm, have been reported and many persons caught in the fury of the wind were injured. At one time the gale blew at the rate of 72 miles an hour in the upper part of New York, according to the weather bureau. Many places were struck by lightning, which played continuously for an hour.

A great section of the Manhattan field fence was blown down, and there was almost a panic among the thousand men and women who had gathered at the Polo grounds adjoining to witness the New York-St. Louis game. The Polo grounds were flooded with a foot of water. The game was called off and the attention of the officials and police was directed to getting the half-panic stricken baseball enthusiasts to a place of safety.

There were in reality two storms, but they blended into one. The Bronx was the first to feel its effects and the lower portion of that Borough suffered most. A wind of extremely high velocity swept from west to east, uprooting trees, smashing plate glass windows, blowing pedestrians from their footing and doing all kinds of damage. Apparently the storm was in two divisions, one advancing down the valley of the Hudson river and the other approaching from Long Island sound, which was torn into a fury by the force of the wind. These two divisions met over the lower Bronx with dazzling displays of electricity. The first windstorm was followed by a heavy fall of rain, like a cloud burst in character and a shower of large hail stones.

Fannie Kissler, a six-year-old child, frightened by the storm and blinded by the rain, ran directly upon a swiftly moving wagon and was killed instantly.

John Dominick, a dock laborer, was knocked into the East river by a plank which had been picked up by the wind, and was drowned.

The wind swept the embers of a bonfire, kindled by a number of boys, over the pinafore of three-year old Clarence Hadden, and he was burned to death.

THE WEEK AT THE CASINO.

Fourth of July Will be a Day Replete With Entertainment.

The Casino this week is offering a splendid bill and to-night a new and novel paper-tearing specialty will be introduced. The act has been accorded much favorable comment on the circuit.

For Saturday, July 4th, a special programme has been arranged. There will be three performances given, at 12 M., 4 and 8:30 P. M. These hours are so arranged that those attending can also be out in ample time to witness the yacht races at 2:30; also the grand pyrotechnical display and fireworks on the Hammocks at 9:45. In addition to the above Signor Guillmetti will give a grand free performance on the slack wire at 11 A. M. This takes place in front of The Casino and is absolutely free to all. After the evening performance there will be dancing until 12 o'clock.

Special Term For Columbus.

The commissioners of Columbus county have asked Governor Aycock to call a special term of court to be held at Whiteville July 27th for the trial of the Registers charged with murder and several other prisoners held upon grave charges. There are now in the jail at Whiteville between 15 and 20 prisoners, only three of which number are negroes—a fact pointing to a condition generally deplored by the good people of that county.

They will be fine. Fireworks at Wrightsville Beach. †
